

Technical Specification for Portable Oxygen Detector

Working Mode	Continuously detecting mode (Sensors and batteries replaceable, and 10+ years lifetime for batteries)
Sensor	Plug in electromechanical sensor
Temperature Compensation	Automatic temperature Compensation
Display	Ultra Large LCD Displaying of Real time concentration
Casing	Rugged TBE/APS Casing
Battery	1100mAH Battery
Working Temperature	-20°C~+55°C
Working Humidity	<95 % RH (non-condensing)
Tolerance	± 5 % F.S.
Range(ppm)	0 to 30% Volume
Alarm Mode	Combined Audible, Visual and Vibration Alarms
Protection Grade	IP67

Sh 29/12/18
